Welcome To
a World of
PRECISION &
EXCLUSIVITY
Crafted Just For You

Choose **Chesta** for faucets that combine style, functionality, and reliability. Experience the difference that our premium faucets can make in your space, elevating both its appearance and functionality. Trust **Chesta** Brand to deliver superior quality products that enhance your everyday life.

At Chesta, we prioritize sustainability and environmental responsibility. Our manufacturing processes incorporate eco-friendly materials and energy-efficient techniques, reducing our carbon footprint. We believe in delivering products that not only enhance the aesthetics of spaces but also contribute to a greener future.

Company Profile

ORGANIZATIONAL FRAMEWORK

The CHESTA brand is ISO 9001:2015 certified firm. The company consists of fully in-house manufacturing plant with the equipped CNC machines and they are operated by the trained operators under the guidance of technical experts. The quality of raw materials is maintained and perfectly checked as per the brass faucets high standard norms and it is maintained throughout the manufacturing process till final dispatch by the guidance of experts of that field. Our product passes through the internal tests to guarantee their longevity. Ongoing investment in research and development enables us to actualize leading technologies for the bathroom industries.

CARTRIDGE

The Cartridge is main operating part of faucet and we believe that the quality of cartridge should be the best, that's why we use CNC produced ceramic cartridge which provides 0% leakage in extreme water pressure and extreme unstable temperature condition. We provide 8 years warranty only on cartridge which is fully made of brass and it provides more flexibility and larger life span of faucet.

AERATOR

The Aerator is a converter and protector of water, which converts hard flow of water into soft flow with the mix up of air and give protection towards salt residues in faucet and it is a water saver part of faucet. We install **NEOPERL** brand aerator in our products which is one of the leading producers of best quality aerator.

CHROME FINISH

The chrome plating is outer shiny cover and protection layer of faucet. We provide high quality chrome plating to the faucet which protects from corrosion and extreme weather conditions. High plating thickness process includes Copper plating with Nickel and Chrome plating.

AFTER SALES & SERVICE

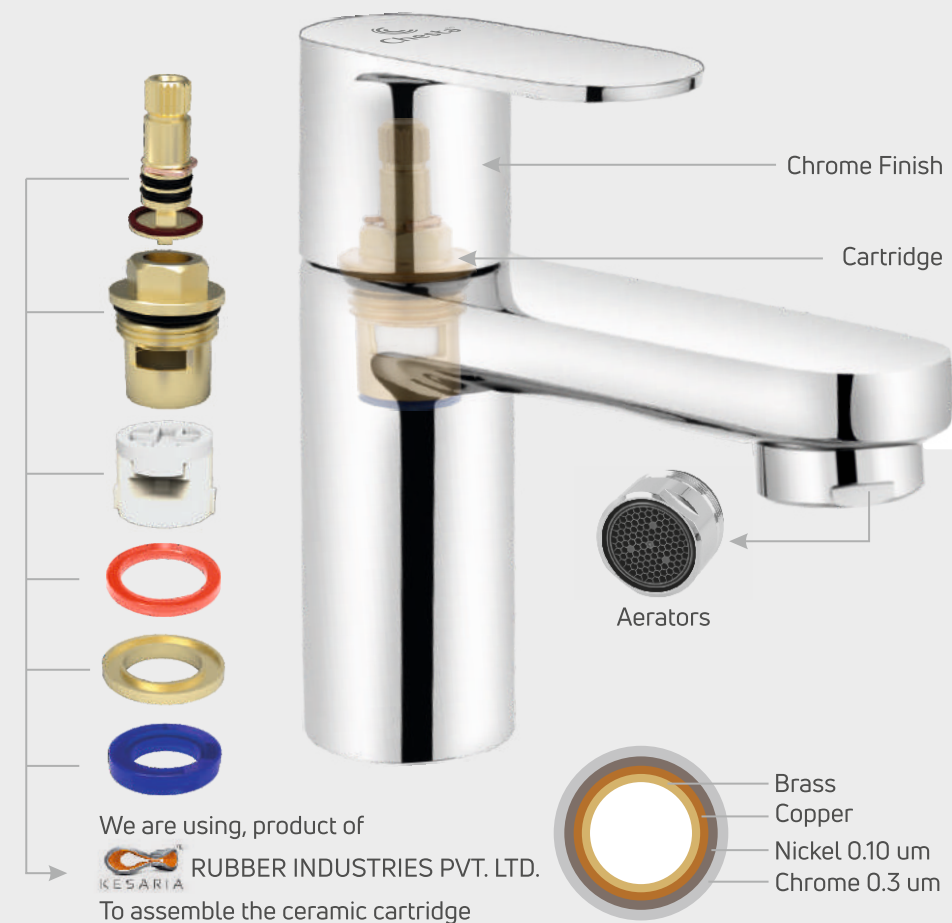

To create the brand name and customer satisfaction service firm, we provide "Customer Friendly" customer service. We provide customer service only on leakage through our dealers and distributors to overcome the customers complaints and satisfy them with proper solutions

For any query or support feel free to contact us

(All business days from 10:00 AM to 6:00 PM except Friday and Holidays).
